

*Answer The Call  
of  
The Healing DrUMM*

Join Doctors for United Medical Missions,  
help to improve health care in Africa by:

1. Providing free health care opportunities
  - a. medical services
  - b. operative services
  - c. dental services
2. Health care courses for African health care providers
3. HIV prevention and other preventive health care courses for patients and their families
4. Improving technology in Africa and the Caribbean

**Active Project sites in:**

- Burkina Faso
- Eritrea
- Ghana
- Kenya
- Mozambique
- Nigeria

**Continuing Medical Education** is a big part of every DrUMM mission. All DrUMM medical projects are collaborate with other African and American based organizations.

It is our goal to create a rich learning environment where information is freely exchanged between team members. Both bedside teaching and classroom style teaching methods are utilized.

**DrUMM utilizes both Continuing Medical Education & Preventive medical education** to make a lasting impact on health care in Africa and the Caribbean.

HIV preventive education is a major topic in our education program

**Doctors for United Medical Missions (DrUMM)** is a non-profit, philanthropic organization that is committed towards improving medical care in developing countries through the performance of collaborative medical projects.

DrUMM maintains that by partnering (uniting) with relevant health stakeholders in developing countries;

1. patients can receive valuable medical-surgical care
2. healthcare providers abroad can receive valuable instruction in "state of the art" medical practices and continuing medical education
